

Build Your Own Family Brand By Creating Your Very Own Branding Iron

Your branding iron is crafted out of iron and hand made by an authentic Brand Inspector for the State of Montana. You can preorder so that it is available when you get to the ranch (allow 2 weeks) or you can order it from us either while you are here at the ranch or just contact us and we can ship it to you (shipping is not included). Irons are about 22 inches in length and are \$100.00.

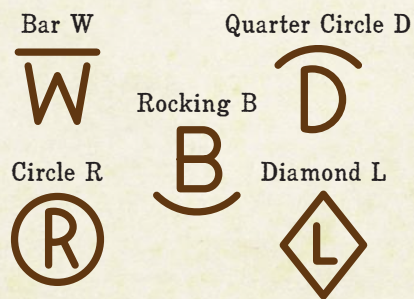

We can supply you with a quote for a custom brand design as well.

Livestock Brands are markings that represent ownership. Each brand is by necessity different than all the others and often conveys the character of the owner.

Brands have a language all their own. That language, like any other, follows certain rules. The ability to read these symbols is referred to as "callin' the brand."

Place the first letter of your last name, or first name, into one of these five styles.

When stamped, the size of the marking is about the size of a quarter.

Brand your leather belts, shoes, wallets, tools, or even your steaks and other foods before serving them.

Pick-up your one-of-a-kind brand at the ranch and take it home with you!
